

CONTENTS

Karachentsev I.D., Kopylov A.I., Kopylova F.G. Distance moduli in M 101 group from brightest stars.....	5
Tikhonov N.A., Karachentsev I.D. Maffei 2, a nearby galaxy shielded by the Milky Way.....	32
Beskin G.M., Mitronova S.N., Neizvestny S.I., Panferova I.P., Plokhotnichenko V.L., Popova M.Yu., Zhuravkov A.V., Bartolini C., Guarnieri A., Piccioni A., Zampieri G. Optical behaviour of GRO J0422+32 in different brightness levels.....	41
Sokolov V.V., Kopylov A.I., Zharykov S.V. Optical studies of γ -ray burst field GRB790418 at the 6 m telescope.....	46
Parijskij Yu.N., Verkhodanov O.V., Pinchuck G.A., Bajkova A.T., Gol'nev A.Ya., Esepkina N.A., Zverev Yu.K., Majorova E.K., Mingaliev M.G., Opeikina L.V., Stotskij A.A., Temirova A.V., Fridman P.A. RATAN-600 radio telescope in the "ZENITH" mode.....	58
Bartaya R.A., Chargeishvili K.B., Chentsov E.L., Shkhagosheva Z.U. Hypergiant 6 Cas and association Cas OB5.....	103
Romanyuk I.I. Some problems of non-reversive CP stars. I. Spatial distribution.....	119
Peterova N.G. On the relation between sunspot and interspot components of microwave radiation of solar active regions.....	133
Orlov V.G. Recombination of the phase spectrum of astronomical images on the basis of bispectral analysis of speckle interferograms.....	143
Glagolevskij Yu.V. A new list of effective temperatures of chemically peculiar stars. II.....	152
Romanov Yu.S., Udovichenko S.N., Frolov M.S. On the magnetic variability of RR Lyrae (short communication).....	169
Instrumental facilities of the 6 m telescope.....	171
Program of observations at the 6 m telescope in 1994.....	185
The form of the 6 m telescope observing time request.....	192
